Credits: 3

This course presents the student with a multi-disciplinary analysis of the issues involved in the modern-day transformation of the Middle East.

Fulfills the GE Social Science & International Issues requirement.
Introduction to Development Studies

Prof. Max Woodworth
MW 2:20 – 3:40 PM
Entirely Online Class
Class #: 20773
Credits: 3

This course introduces the beginning student to the field of development studies.

Fulfills the GE Social Science & International Issues requirement.
Introduction to Peace Studies

Prof. Benjamin McKean
TR 11:10 AM – 12:30 PM
Entirely Online Class
Class #: 13888
Credits: 3

This course provides a comprehensive overview of the quest for peace. It traces major issues in the field of peace studies and it introduces a variety of strategies to achieve peace.

Fulfills the GE Social Science & International Issues requirement.
Introduction to Western Europe

Prof. Philipp Rehm
Entirely Online Class
Class #: 22390
Credits: 3

This course presents an introductory overview of Western Europe.

Note: GE Social Science, and International Issues course, or GE History course.
The analysis and display of data provides students with an introduction to the steps and methods involved in gathering, presenting, analyzing and interpreting data. Students will develop an understanding of how to critically evaluate the validity of statistical arguments, numerical and/or graphical.

This class fulfills the GE Data Analysis requirement.
Intelligence gathering and analysis is critical for the protection of our country in a time of uncertainty and multiple global threats. This class will provide students with a comprehensive introduction to the US Intelligence Community and to the wider field of intelligence in general.

Prerequisites: None.
This course provides students with a comprehensive overview of U.S. homeland security.

Prerequisites: none
Introduction to

Globalization

Dr. Omar Keshk
TR 11:10AM – 12:30PM
Room 209, Campbell Hall
Class #: 13889
Credits: 3

Globalization is perhaps the most widely discussed, and controversial, concept of the early 21st century. This course is designed to introduce students to debates and to explore globalization in all its aspects, economic, political, cultural, environmental and technological.

Note: Fulfills the GE Social Science & International Issues requirement.
The (Un)Rule of Law in Latin America

Dr. Sara Schatz
WF 9:35AM – 10:55AM
Room 080, Derby Hall
INTSTDS Class #: 18595
Credits: 3

This course explores recent trends to combat corruption, consolidate liberal-democratic regimes and continued efforts to forge more robust rule of law in Latin America.

Prerequisite: None.
Global climate change is one of the most important global environmental, economic, and policy issues of our time. Even as the US Congress debates major legislation to address climate change, and the global community debates a successor treaty to the Kyoto Protocol, industries worldwide are voluntarily changing their business practices to account for their impact on the environment.
More than 800 million people in the world today are chronically undernourished and lack secure access to food. Why does hunger persist when world food supplies are more than adequate to feed everyone? What can be done to reduce hunger worldwide? This course addresses the conditions that enable or prevent people from having constant access to food.
This course is designed to introduce students to the major problems of the developing world and to analyze them using the principles and concepts of development economics.
The purpose of this course is to acquaint students with the means of conceptualizing and assessing the impact of the process known as globalization.
This course addresses population growth and the challenges it poses – in particular, the challenge of providing everyone with an adequate diet while simultaneously conserving the natural resources on which agriculture and other economic activities depend.
The purpose of this course is to familiarize students with the ideology, motivation, and methods of numerous terrorist groups of the last two centuries in order to provide a basis for an understanding of contemporary terrorist organizations.
Dr. Jeffrey Lewis  
TR 11:10 AM – 12:30 PM  
Room 150, Pomerene Hall  
Class #: 13892  
Credits: 3  

This course offers students an overview of the issues relating to atomic, biological, and chemical weapons, commonly referred to as weapons of mass destruction (WMD).
Science, Technology & American National Security

Dr. Jeffrey Lewis
MW 2:20 PM – 3:40 PM
Room 243, Campbell Hall
Class #:    34727
Credits:     3

This course critically examines the relationship between science, technology, and American power from the post-Civil war years until the present day

Prerequisites: Sophomore standing or higher.
MODEL UNITED NATIONS

Dr. Robert Woyach
WF 12:45 PM – 2:05 PM
Room 006, Hayes Hall
Class #: 18432
Credits: 3

An interactive diplomatic simulation of the political processes of the UN General Assembly focusing on selected global problems; involves class discussions, group projects, and significant student participation.
Peacekeeping & Collective Security

Dr. Robert Woyach
WF 9:35 AM – 10:55 AM
Room 160, Jennings Hall
Class #: 24118
Credits: 3

This course explores the theory and practice of international peace interventions and human security, two key multinational responses to international violence.

Prerequisite: Sophomore standing or higher.
Today's US Intelligence Community faces many controversial issues while trying to deal with the multiple global threats that face the US. In this class we will discuss, in depth, such issues as the role of Intelligence Community activities within the US; the appropriate level of legal constraints on intelligence activities; and the uses, and misuses, policymakers make of intelligence.

Prerequisite: International Studies 3700, or permission of department. Embedded Honors section.
